Subject Re: Samsung pre-registration meeting

Hi Marshall,

The week of 9/10 might be best because of vacation schedules. Pls invite Melba and the science team.

Many Tx. Betty S.

Subject Samsung pre-registration meeting

Hi Marshall,

Thank you for agreeing to a pre-registration meeting for the SilverCare washing machine in early September. I assumed that really meant post-Labor Day plus a day, so I polled the troops for availability for the dates Sept 5 through 14. I am pleased to report that I got the entire window cleared by our group.

Please pick a day from this window and let us know the day and time to show up at your offices. I think we will have a small group of attendees from Samsung – probably four or five. If possible, we would like to have Dennis Edwards attend because of his intimate involvement in the washer and pool and spa issues and Betty Shackleford because of her involvement in EPA silver policy.

We will prepare an agenda after we get a date but you can count on the focus being what the EPA expects, wants and needs in a registration package for the washing machine.

Best regards,

Elmer Rauckman, PhD DABT
